

Doctor of Education (EdD)

This program is offered by the School of Education and is available asynchronous online. The emphasis in Transformative Learning in the Global Community is available asynchronous online and via Live Virtual (synchronous online).

Admission to this program is every year.

Program Description

Webster University's Doctor of Education (EdD), offered by the School of Education, is based on a scholar-practitioner model with a well-rounded program for fostering scholarship, research and leadership among candidates who aspire to make a difference in today's world. It is based on a holistic framework with four foci: theory, research, practice and leadership. Beyond the four foci, the program values social consciousness, criticality and advocacy. Social consciousness corresponds to the connectedness of the dissertation projects to the sociopolitical, socioeconomic and sociocultural contexts. Criticality refers to doctoral students' critical thinking and analytical capacity to challenge the status quo and create new proposals for advancing the knowledge base and specialty area. Advocacy reminds students to take the findings from their research projects to the next level and become a voice and advocate for the people for whom they represent and care. Webster University's doctoral program also values projects which engage in cross-cultural research with global contextual relevancy.

The program duration is approximately three years (maximum is seven). Students take coursework in the first two years and complete a dissertation or doctoral digital portfolio in the third, with the exception of students with a conferred Educational Specialist (EdS) degree. Students admitted with a conferred EdS are waived 15 credit hours, equivalent to one year of coursework. Students will need special permission from the Dean if the duration of study exceeds seven years.

EdD Emphasis Areas

- Educational Leadership
- Special Education
- Transformative Learning in the Global Community

Note: DESE certification is not covered in the doctorate. Students need to consult with the program directors in other academic programs for DESE certification.

Note: Special Education emphases require requisites which can be taken simultaneously with doctoral courses and/or prerequisites which should be taken prior to the program.

Learning Outcomes

The doctor of education develops scholars, scholar-practitioners, and leaders with expertise in research and scholarship through coursework with social conscious perspectives. The program provides learning opportunities for students to develop academic competency through theory building, practical application of research knowledge in school settings and leadership skills. The EdD program enables students to:

- Investigate and critically analyze current affairs, issues, theoretical issues, empirical studies, practice and policy in educational settings.
- Read and write with synthetic and analytical competence for applying complex theories in research and publishing in respected peer-reviewed journals and other publication venues in the field.

- Conduct research for pushing boundaries in a specialty area in education and shed new light in the building of knowledge base.
- Reflect on the status quo in educational settings and offer data-driven and evidence-based solutions and proposals.
- Develop leadership skills to become a voice and advocate for the people they respect.
- Demonstrate respect of diversity through their ability to facilitate and model collaborative inquiry for advancing social and institutional change.

Each emphasis' specific learning outcomes are measured in the Doctoral Modules with rubrics specified.

Additional Requirements

Requirements for admission to the doctor of education program include:

- Official transcripts from **all** universities, colleges and professional schools.
- Transcripts showing evidence of a bachelor's degree and a master's degree completion.
- Cumulative GPA of 3.0 for graduate coursework.
- Three (3) letters of recommendation*.
- An interview may be required.

***These required materials must be electronically uploaded to the application account.**

Application Process

The doctoral program will admit a cohort every year depending on the enrollment and availability of courses. Domestic and international applicants must submit all required documents **by July 1st** for a Fall start. International students may complete the online program in the countries where they reside. F1 student visa will not be sponsored. International applicants need to submit required application materials according to International Admissions, except for documents that pertain only to F1 student visa sponsorship.

Students with a conferred EdS degree will be waived 15 credit hours and may be admitted with the rest of the cohort, but begin in the odd year.

The admission packet will be reviewed, and if considered appropriate, an interview will be scheduled with the Doctoral Admissions Committee. The committee may require the applicant to provide other materials to speak to the readiness of the applicant for the EdD program. Should the committee find weaknesses in certain academic areas, the applicant may be strongly advised to take additional coursework that **will not** count toward the degree requirements.

The applicant must successfully complete an interview with the Doctoral Admissions Committee during which the applicant presents their research interest.

Advancement to Doctoral Candidacy

Doctoral students who completed all coursework requirements before taking EDOC 8000 or the EDOC 8001-8002 sequence will

take the comprehensive examination in the course EDOC 7902. Students who have passed the comprehensive examination will earn the status of doctoral candidacy. Students not advanced to doctoral candidacy are not eligible to continue in their programs. Advancement to doctoral candidacy indicates that a student shows the requisite capacity and dedication to complete the program.
