

Fitness Programming and Management (BA)

This program is offered by the College of Science and Health/ Natural Sciences and Mathematics Department and is only available at the St. Louis main campus.

Program Description

The Bachelor of Arts in Fitness Programming and Management prepares students for applied careers in fitness leadership, wellness entrepreneurship, strength and conditioning, corporate wellness, and medical/pharmaceutical sales. The program blends the core exercise science curriculum with coursework in business, marketing, and leadership. Students complete applied internships and may personalize their career path with electives selected from the departments of Dance, Education, or Business.

Learning Outcomes

Successful graduates of this program will be able to:

- Apply foundational knowledge of anatomy, physiology, and kinesiology in fitness and wellness settings.
- Demonstrate business, sales, and marketing skills relevant to fitness and medical industries.
- Design, implement, and assess individualized and group fitness programs.
- Exhibit leadership and management skills in gyms, wellness programs, or entrepreneurial ventures.
- Communicate effectively across professional contexts (clients, teams, healthcare providers).
- Integrate ethical decision-making and global citizenship into fitness/wellness leadership.
